

ProVaR Breeder receives another Medal

August 2009

Following on from his success at Plantarium 2008, well known plant breeder, Peter Catt, has again been awarded a Silver Medal at this year's Plantarium for his new Perovskia 'Lacey Blue'.

The silver-green, deeply indented foliage of this "Russian Sage" terminates in large spikes of silver-blue buds which deepen as the sky-blue flowers open. The plants grows to approximately 60cm. Pruning after flowering will produce a second flush later in the season.

The Perovskia will be able for propagation through ProVaR in the 2010 season.
