

ProVaR EXHIBITS AT SOUTH REGIONAL GROWERS SHOW

ProVaR made it's first visit to the South West Regional Growers Show to publicise it's plants and showcase new varieties to a South West audience.

The stand was well received by a selection of independent garden centres, retail nurseries, landscapers and professional gardeners.

This is our last show of 2008, and thanks must go to everyone who we have spoken to over the course of the year, throughout the UK.
