

June 2008

“ProVaR welcomes First Dutch Breeder”

ProVaR are pleased to welcome Reinier van Reisen from Plantipp in the Netherlands as a breeder member joining in June 2008. Initially this adds *Lucothoe Caxillaris* ‘Curly Red’ to our portfolio of plants which now numbers in excess of 140 varieties.

Plantipp Bv. Are a specialist plant royalty management company who represent many international plant breeders and promote their plant varieties across Europe, The USA and Japan – we are delighted to have the opportunity to make the *Lucothoe* available to UK growers and look forwards to making more plants from Plantipp available in the coming years.

ProVaR can now directly offer the breeding work of 13 breeders and royalty management companies to UK growers in one simple step – this offers a unique opportunity for our members to instantly access trial material, mother stock and information about these new varieties.
